

## PETTIT'S SLAYERS

All Captured But One.  
Three of Them Here  
Thursday.

One At Clay City Reported to  
Have Been Mobbed.

Three of the slayers of Marshall Pettit, of Clay City, were in this city last Thursday and one of them was captured by our shrewd policeman, James Tipton and lodged in the county jail. A great deal of excitement was created in this city when it became known that the negroes were here and still more excitement prevailed when Capt. Mullikin and his bloodhounds arrived about dark accompanied by a number of armed men from Powell county. Another one of the negroes was arrested in Winchester and placed in the Clark county jail by Winchester officials.

That Policeman James Tipton captured the right man when he lodged Tenny Smather, of Clay City, Powell county, in jail here Thursday evening was settled Friday morning. After a night's siege in jail with officers giving him a gruelling examination, Smathers confessed that he was the murderer of Marshall A. T. Pettit, who was killed near Clay City Wednesday night. The negro said that Pettit had placed him under arrest, and that he grabbed a shotgun and shot the officer killing him instantly. He says that immediately after he shot the officer and he fell, three other shots were fired into his prostrate body, but that he does not know who fired them, but believes his brother, George Smathers and Frank Williams, did the shooting.

He said that after the shooting all three left and came together to Black Creek Hill, about nine miles from this city, where they separated, and he came on here where Mullikin's dogs trailed him.

The negro was badly scared, seemingly afraid of mob violence, and asked the officers to protect him. He says that he is sorry for killing Pettit, but that "being drunk on mean whiskey" was the cause. George Williams is still at large, but officers from Powell and this county are scouring the country for him. Chief of Police Gibbons found a pistol and some keys

which the men hid under the house where Tenny Smathers was captured.

SAID TO HAVE BEEN MOBBED.

Bert Smathers, father of the negroes who were arrested in this city and Winchester, and who was himself arrested at Clay City, has mysteriously disappeared from jail and it is reported that he has been mobbed and thrown in Red River, however, this is emphatically denied by officials at Clay City, but owing to the fact that the lock on the jail was broken from the outside it looks as though there might be some truth in the story.

The Murder of Marshall Pettit was one of the vilest crimes ever committed in Powell county. The officer with two deputies had gone to arrest some disorderly negroes and had captured Bert Smathers, the father of the other three and while the two deputies were gone to place him in jail and get more ammunition Pettit was murdered. He was shot five times with a pistol and twice with a shot gun and his head was beat into a jelly with a railroad tie. When the deputies returned the body of the murdered official was found in the road and the negroes had made their escape. The feeling at Clay City was intense and if any of the negroes had been found in Powell county they would have undoubtedly been killed on the spot.

This is the second officer of the law who has been killed by treacherous negroes in this section within the last few months and it is hoped the guilty will pay the death penalty.

Our time will be devoted exclusively to the tin and plumbing business.

## BASE BALL OR NOT?

That's the Question. Is  
Mt. Sterling to Have  
a Team?

If We Are to Have a Team This  
Season We Must Get Busy.

The question as to whether Mt. Sterling will be represented in the Blue Grass League this season is one that must be solved and solved at once. If we are going to have a team we must get busy. It is a certainty that a losing team will not pay in Mt. Sterling, but owing to the fact that we have one of the best ball towns in the league it is hoped that we will again be represented. We already have the franchise and if enough players of ability can be secured base ball will prove a drawing card for Mt. Sterling.

Mr. S. S. Pinney, who managed the team last year, is going to go among the merchants and fans of this city at an early date and do all he can to help secure a team for the coming season. He states that he is willing to do everything he can to help get a team here and will make a liberal donation, but owing to other business matters will not have time to take any active part in the management.

Base ball is the most popular pastime in America and if we are going to be represented in organized company we must get busy at once. The question is, will we donate enough money to secure a first-class team. It is now up to the fans and lovers of the sport.

### Jas. S. Turner and Miss Laura Elkin Surprise Friends.

Mr. James S. Turner and Miss Laura Elkin surprised their many friends last Thursday afternoon by going to Lexington, where they were married, the ceremony being performed at the home of the bride's sister, Mrs. O. E. Lyon.

The bride is a daughter of Mr. G. W. Elkin, of this city, and is an attractive young woman possessing many talents, and is much loved by her many friends.

Mr. Turner is a former member of the police force, before which time he conducted a barber shop. He is a gentleman with many friends, who wish the couple a long life of happiness.

## MADERO KILLED

Former President and  
Vice-President of  
Mexico Killed.

Were Being Taken to Penitentiary  
When Fatal Shots Were Fired.

Francisco I. Madero and Jose Pino Suarez, deposed President and Vice-President, respectively, of the Mexican Republic, were shot and killed when an attempt was made to rescue them from an automobile that was transferring them to the penitentiary, according to official report. The guards at the penitentiary have been increased and even their widows were refused permission to see the bodies of the slain men pending the completion of autopsies. News of the tragedy was received by President Taft on his arrival from New York, and has caused apprehension in Washington. Ambassador Wilson and the Diplomatic Corps at Mexico City refused an invitation to luncheon from de la Barra until Madero's death was divested of mystery. It is generally believed that the tragic event has placed an additional strain upon the already tense relations between this Government and that in the Mexican Capital. The immediate result will be to hasten military and naval preparations in order to have soldiers ready to answer a call for instant embarkation if further developments in Mexico should demand their employment.

### Emanuel Carpenter Killed.

Emanuel Carpenter, of Bath county, was killed by a C. & O. train Saturday afternoon near Stepstone in a cut about nine miles from this city. Death was almost instantaneous. Carpenter and his wife were walking the track and when the train was heard coming he called to his wife to get off the track but in getting off himself failed to get out of the way of the steps of the fast moving train.

He was a farmer, about 60 years of age, and besides his wife he is survived by two sons, one living in this county and one in Lexington. The body was brought here by a train crew and prepared for burial which took place in the family burying ground.

### SADDLE HORSE GOSSIP.

L. C. Brown, of Boyle county, is the owner of one of the most remarkable horses ever heard of in this state. This mare is 27 years old and has just foaled her 24th colt, all of which were raised to maturity, and were sold by Mr. Brown for an average of \$500 per head. Can you beat it?

Report has it that Abe Coleman, of Harrodsburg, is getting together a string of horses for campaigning the coming season, which will be one of the strongest that this popular trainer has ever had. He is an adept at handling and getting horses ready for the show rings, and the boys will have to watch him this year.

Allie G. Jones of North Middletown, bought in Mt. Sterling this week a fancy sorrel gelding from Manassas county parties for \$500. The breeding of the horse was not ascertained, but he is a good individual with long neck, magnificent tail, fine legs, and is an excellent prospect for a show animal. Under the skillful handling of this expert trainer this gelding looks as if he would "make good" in the show classes.

Golden Rainbow, the sensational show stallion, owned by Brock Brothers, of Georgetown, was sold this week to South Carolina parties for a private price. The horse has been a very successful winner, serving 21 blues and seven reds, and is considered one of the best in the country.

Charles E. Duff sold this week to E. R. Combs, of Perry county, a fancy bay two-year-old mare. The price paid was \$225. The filly was sired by McDonald Chief and out of Mr. Duff's grey saddle mare and is a well-bred one and a natural saddle.

Matlack & Shropshire have begun working their sensational show gelding, Jack Barrymore, to harness, and will show him next year in the five gaited classes as well as in the harness classes. This horse has developed much speed, and will prove a hard nut to crack. Jack Barrymore has also improved a great deal in looks, his color being much better and from present indications he will be one of the real sensations of 1913.

J. Clark Kemper and Hulon Kemper, of Millersburg, have purchased all the holdings of J. H.

Kemper in the saddle horse business and will engage in the breeding and show business. The stock owned by these young men, 11 head, consists of many brood mares, some young stallions and fillies and in blood lines is the equal of any in the world. In the brood mare and colt classes this year they will be represented by the sensational mare, Dolly McDonald, said to be one of the greatest breeders and show animals in the world.

Robert C. Lloyd, of this city, has sold to Ben F. Harrison, also of Mt. Sterling, a one-half interest in Cloud Boy, a bay gelding by Cloud King, the dead sire, and out of a mare by Blue Jeans. This horse has the making of a very fine show animal and will be taught the five gaits and also worked in harness, and in the hands of Mr. Harrison, he should prove a wonder. This horse is a bay in color with white markings and will make a flashy horse in the ring. We trust that when Mr. Harrison gets him ready he will make his first show right here at home.

R. B. Young, of Walnut Grove Stock Farm, Montgomery county, sold this week to M. O. Cummings, of Matoy, Oklahoma, a fine brood mare, chestnut sorrel, by Bourbon Chief, out of a mare by Wilson's King. The mare is 8 years old, and will be used by her new owner for breeding purposes. She is fashionably bred and was sold on an order. The price paid was a private one.

J. E. McClure, of this county, sustained a heavy loss this week when his fine brood mare, Fannie Mack, by Bourbon Chief, slipped twin colts, horse and filly, by Golden King. This mare has been the producer of some fine show colts and Mr. McClure was counting on having a very fine one this year. The loss is a severe one and he has the sympathy of the horse fraternity.

One of the greatest prospects for the five-gaited classes this year is Greenbriar Lady, a three-year-old filly owned by Ray Moss, of Montgomery county. This filly was sired by Sterling Chief, and out of Daisy Moss, the dam of three show winners, one in Missouri, one in Illinois and one in Southwestern Kentucky. Greenbriar Lady is a chestnut in color, with a brilliancy of flash and dash sure to catch the eye of the best horsemen. She is

very fast at the trot, with a good, true movement, and is a wonder at the rack and the slow gait. She is perfect in symmetry and form and for action, gait, but it is good. In action Greenbriar Lady is the poetry of motion, and her manners are perfect. She is being carefully prepared for the coming shows and will go down the line, and when they beat her this year, the winner will be crowned the Queen, as she looks undefeatable in her class.—The Blue Grass Journal.

## Scrap Book

Too Busy For Work.

Dr. Donald M. Gullie, although a Canadian and president of the Canadian club of Chicago, has a large fund of rich stories. One that he told at the annual banquet of the Chicago Dental association was as follows:

"Murphy left the church one Sunday after listening to an eloquent sermon on 'The Day of Judgment' and sought out Father Kelly."

"Sure," says a fine sermon, father," he said, "but did you mean what he said about all the nations getting together on the day of judgment—all of 'em?"

"I did that, Murphy," said Father Kelly.

"The Dutch, the Germans, the Scotch and all?" said Murphy.

"All of them," said the priest.

"And the English?"

"Yes, they will be there too."

"And the Orangemen?"

"Certainly, Murphy."

"And will all the Ancient Order of Elthamians be there too?"

"As sure as you are here now."

"Well, father, dear," murmured Murphy as he walked away, "I'm thinking there won't be much work done the first day anyway."

People who were present smiled at

the little passage of arms which took

"Amusement?" said the other.

"Oh, yes," went on the bride. "I've

A Heavy Diet.

A Tipperary fisherman makes a specialty of pike, for which he finds ready sale in the town. He had one customer who was in the habit of so beating him down in price that he felt justified in resorting to somewhat questionable means to increase the weight of his fish. In the manner of the winner of the stakes in the celebrated "Jumping Frog" sporting event, he would introduce some weighty substance into their interior—stones, bits of iron railing, etc.

Once he went so far as to stuff two old handless flatirons he had picked from a refuse heap down the gullet of one before taking it to his customer, who, having weighed it carefully and, after much haggling, paid him a fraction less per pound for it than he might have perhaps obtained elsewhere. Meeting him next day, Pat was instantly aware there was trouble in the wind by the opening remark, "What do pike feed on, Paddy?"

"Och and indade, your honor, but there's mighty little that comes amiss to thim lads," answered Pat. "Frogs and fish, sticks and shingles they like well, but they would give their two eyes for flatirons."

### Helping Men to the Farm.

If Congress grants the request of the Department of Commerce and Labor for \$3,000,000 appropriations to maintain bureaus of information at Chicago, New Orleans and San Francisco, the department believes it can accomplish great results in the next few years in getting men from the city to the farm. It will proceed with the work, whether it gets the amount asked for or only \$500,000 in all, as rather expected.

This plant does not contemplate a "back-to-the-farm" movement primarily as a means of diverting the trend of population countryward. Its purpose is to find out the men in the cities who are tired of that life and are anxious to get on the land, either as laborers or proprietors, and its inquiries would be chiefly directed toward men who came from the farm, either in the United States or Europe. It would also aid in bringing back from Canada large numbers of American farmers who went there and became tired of conditions.

As far as outlined, the scheme seems to be very practical and potential of far-reaching results. The fact that it does not seek to induce the city bred man to go to the farm makes it appear all the more rational. It is quite agreed among those who have studied this problem that any back-to-the-farm movement promising permanent success must begin and for a good while confine its labors chiefly among the men who once were used to the farm, many of whom, this information bureau discovers, are eager to return, and would, with a little assistance in locating inviting opportunities. — Omaha Bee.

**W. S. LLOYD'S SUCCESS**

**Great Popularity of Plan to Sell Medicine at Half Price and Guarantee a Cure.**

W. S. Lloyd, the enterprising druggist, rather than await the ordinary methods of introduction, urged the Dr. Howard Co., to secure a quick sale for their celebrated specific for the cure of constipation and dyspepsia by offering the regular 50c bottle at half price.

In addition to selling a 50 cent bottle of Dr. Howard's specific for 25c W. S. Lloyd has so much faith in the remedy that he will refund the money to anyone whom it does not cure.

When your head aches your stomach does not digest food easily and naturally when there is constipation, specks before the eyes, tired feeling, giddiness, bad taste in the mouth, coated tongue, heart burn, sour stomach, roaring or ringing in the ears, melancholy and liver troubles Dr. Howard's specific will cure you. If it does not, it will not cost you a cent.

This latest achievement of science is of great value in curing sick headache. Thousands of women are today free from that painful disease solely through the use of this specific. 32-34

### Interesting Health Letter.

February 18, 1912.

Dr. W. L. Heizer, State Registrar of Vital Statistics, Bowling Green, Ky.

Dear Doctor:

Through newspaper reports, the Bulletins of the State Boards of Health and personal conferences, I have learned of the kind of health work the local registrars of Kentucky are doing. It is shown that they not only endeavor to secure complete records of births and deaths, but, acting under the authority of Kentucky's Vital Statistics law, they report epidemics of Typhoid Fever, Diphtheria, Measles, Infantile Paralysis and other communicable diseases and aid actively in distributing literature, and, in other ways, limit the spread of these scourges.

By so doing, the registrars of Kentucky have succeeded in putting into actual practice the purpose of such a law, that is, to preserve and conserve the health and lives of the people.

It is my purpose to call the attention of the local registrars of other twenty-one of the United States under this registration law to the work done by the registrars of Kentucky that the greatest good may be secured from its operation.

Very truly yours,

Cressy L. Wilbur, Chief Statistician.

The birth returns for 1911 numbered 60,732 and for 1912, 61,199. These will be increased by some delayed reports. The death for 1911 numbered 30,583 and for 1912, 29,649. The deaths from consumption (Tuberculosis) for 1911 were 5,181, and for 1912, 4,728, a substantial decrease. Typhoid Fever, likewise, showed a reduction in prevalence and fatality, being 1,035 in 1911 and 758 in 1912. Diphtheria showed a slight gain, being 545 in 1911 and 687 in 1912. The following shows the number of deaths from other preventable diseases:

	1911	1912
Scarlet Fever	72	54
Whooping Cough	374	330
Measles	394	52
Pneumonia and Broncho-Pneumonia	2,530	2,447
Summer Complaint of Children	1,124	932
Meningitis, all forms	630	607
Lagrippe	447	425
Child-bed Fever	161	132
Other Diarrhoeal Diseases		553

Cancer shows an increase; 909 in 1911 and 943 in 1912. A Bulletin containing an article on this disease, which is free from technical language, may be obtained by request to the State Board of Health, Bowling Green.

Violence showed in 1911, 1,526 deaths, and in 1912, 1,719.

A remarkable fact of all these deaths is that in 1911, 41 of every one hundred deaths were caused by diseases practically preventable. 1912 showed 39 per hundred dead of diseases that can and ought to be prevented.

The Federal Government accepts these certificates from Kentucky as complete, though the doctors in many cases can improve their quality by giving exact and scientific causes of deaths.

The births would likewise be accepted were it not for the delinquency on the part of some physicians and midwives in Louisville, Paducah, Owensboro, Covington and Lexington. A systematic house-to-house inspection for unreported births is now being made and prosecutions will be instituted to bring these up to the standard of the rest of the State, in which it is believed 95 per cent. of all births is being reported,

We are authorized to announce the following gentlemen as candidates before the State Primary, August 2, 1913, subject to the action of the Democratic party, to-wit:

#### FOR REPRESENTATIVE

SAMUEL TURLEY  
H. K. GREENE

#### FOR COUNTY JUDGE

W. O. CHENAU, SR.

#### FOR COUNTY ATTORNEY

EARL W. SENFF

#### FOR COUNTY COURT CLERK

KELLER GREENE

#### FOR JAILER

JOHN F. RICHARDSON  
O. M. WILLOUGHBY

#### FOR ASSESSOR

DAN J. HOLLEARN  
JOE W. LANGSTON  
W. B. GREENE  
JAS. T. BARNES  
JOHN D. GREENWADE

#### MISS GEORGIE SLEDD.

At the urgent request of many Democrats from every precinct of the county, Miss Georgie Sledd has concluded to ask the Democratic party to honor her by making her its nominee for County Superintendent of Common Schools, at the State Primary, August, 2nd, next.

Miss Sledd is a daughter of Mr. William Sledd and is a member of one of the largest, most popular and influential families in this section of the State.

The office of County Superintendent is the only county office to which a lady may aspire and having had years of experience as a teacher in both private and public schools, she is admirably equipped to discharge the duties of this important position. At present she is assistant Principal of the Montgomery County High School and is recognized as an educator of rare attainments.

She has always taken an active interest in matters educational and has made this subject her life's work.

Her many relatives and friends have already commenced an aggressive campaign, in her behalf, which they promise to push with might and main until the polls close on the first Saturday in August. That she will make the race interesting, no one doubts, and we present her claims and ask that the Democrats of the county give them the careful consideration her many qualifications entitle them to.

#### PROF. M. J. GOODWIN.

Prof. M. J. Goodwin, who has served the people of Montgomery county long and faithfully as County Superintendent of Common Schools, authorizes us to announce his candidacy for re-election, subject to the action of the Democratic party.

Practically all his life has been devoted to the profession of teaching, he having conducted for years a private school here and his official duties have been discharged promptly, efficiently, and so far as we know, with general satisfaction. He has always taken a very important part in every educational movement and was especially active in the establishment of the Montgomery County High School, an institution which is an honor to our city and county.

His democracy is pure, his record clean and being a gentleman in all that the term denotes, we take pleasure in presenting his claims for the consideration of the Democratic voters in the State Primary, August, 2nd., next.

#### EARL W. SENFF.

County Attorney E. W. Senff is a candidate for re-election to the office he now has the honor to hold.

Being one of our stockholders and a brother of one of the editors of this paper, we deem it proper only at this time to make announcement of his candidacy and to say that he and we will deeply appreciate the support and influence of his fellow-Democrats.

#### MR. JOHN D. GREENWADE.

By his authority, we announce Mr. John D. Greenwade, as a candidate for Assessor of Montgomery county, subject to the action of the Democratic party.

Mr. Greenwade is the manager of the Mt. Sterling Stock Yards and a dealer in fancy horses. He has never been a candidate for public office, but has always taken an active interest in behalf of his party and is widely known and deservedly popular.

He is well acquainted with the values of Montgomery county lands, is a business man of fine judgment and integrity and would make an admirable Assessor.

At the proper time he authorizes us to say that he will begin an active campaign for the nomination and will appreciate any assistance any one may render him.

#### NEGLECT IN PAYING ACCOUNTS.

We have heard several of our merchants complaining about how slow some of our most prominent citizens were in paying their accounts. The class whom we have reference to are well to do people and could write a check for any reasonable amount and have it honored, but pay absolutely no attention to statements and seem to think that just because "they are good" the merchant needn't worry. Of course if there were only a few that did this it wouldn't matter so much but where there are many it takes a great deal of additional capital to run a business and in a great many instances this has to be borrowed, thereby increasing the selling price and we are sure if our citizens, especially our influential citizens, will stop and think this matter over they will know that "just because they are good" is not sufficient for the merchant to pay his account with, and they will be more prompt in the future.

#### BATH CIRCUIT COURT.

Special Judge J. M. Benton continued the case against the thirty-eight striking Rose Run miners on account of important witnesses being absent.

The old negro woman, Grant Wilkerson, was given from two to twenty-one years in the penitentiary for killing her husband. He came home drunk one day and handed her his shotgun with instructions to shoot him which she promptly did.

The grand jury returned indictments against John Sundry and William Shurz for the murder of Chas. Reid, who was killed near Bald Eagle a few weeks ago.

A thorough investigation is being made into the assassination of Thrashly Staten, who was found dead in a public road several months ago.

#### MADE THE DOSE TOO LARGE

Young Doctor Meant to Earn His First Fee Honestly, But His Patient Objected.

"I had gotten my medical education by the hardest work," said the doctor, "and had hung out my shingle out west. I had expected to have to wait for the first patient, but not to have to wait so long. Finally, however, the call came. It was to a little house on the edge of town, and when I got there I found a woman sick with I had no idea what. I made out a 'pill prescription' for her, and for fear that I shouldn't earn my money, I wrote nearly the whole materia medica into it. Then I told her to send it to the nearest drug store and have it filled, and then I left. After an hour or two a small, shock-headed boy appeared at my office, which was over the bank and approached by outside stairs. Was I the doctor that had just been at his maw's house? His maw's house corresponded with the house I had just visited, so I was the doctor. 'Well,' he went on, 'my maw says, how you expect her to swallow that air pill? She ain't no hoss.'"

"The flower never cares," says one of the philosophers, "who shall inhale its fragrance."

It is different with a woman who is wearing an expensive new hat. She is particularly anxious to have it seen by women who can't understand how she is able to afford such things.

#### HE LOST HIS JOB.

"Woodrow Wilson," said a Princeton man, "often illustrates with a story the chief drawback of school teaching."

"This drawback is an arbitrary tone, a tone of command, due to the constant ordering about of the young. Dr. Wilson's story is about a youth, an ex-teacher, who got a clerkship in a bank. The youth happened to look up from his work one day, and saw the president dreaming at his desk. Thereupon, forgetting that he was a bank clerk and not a school teacher now, he whacked the counter with his fist and shouted at his chief in a voice of thunder: "Say, you, get on with your work!"

#### NO WAY OUT.

"It's easy enough to show Spartan composure on other people's behalf," said, in a Fourth of July address, Mayor Thomas Tiedeman of Savannah.

"You're heard, perhaps, of the two Hessian soldiers under Cornwallis during the revolution. These men were acting as scouts in a swampy forest. They got separated, and, an hour later, one came upon the other up to his chin in a bog of quicksand.

"Ach, Hans, Hans, how am I to get out of this? the poor fellow shrieked in fear and anguish.

"I don't think you can get out of it," the other answered with true Spartan calm."

## BROOKLYN TABERNACLE

BIBLE STUDY ON

THE OATH-BOUND COVENANT.

Genesis 15:5-18—March 2.

"He is faithful that promised."—Hebrews 10:23.

TODAY'S Study directs our attention to God's oath, whereby the Covenant was confirmed to Abraham. St. Paul calls attention to the fact that the repetitions of the Covenant to Abraham, Isaac and Jacob, as well as God's oath, were intended especially for Spiritual Israel—the Church.—Hebrews 6:16-19.

The Apostle thus declares that this Covenant has not yet been fulfilled; and that both Christians and all mankind are vitally interested in its fulfillment. This Covenant contains, as an acorn an oak, the entire Plan of God for human Redemption and Restitution. For this reason the Abrahamic Promise is continually referred to by the Apostles, in their presentation of the hope for the Church and the world.

The Promise was primarily to Abraham himself—"All the land which thou seest will I give thee—and thy seed after thee." The Israelites have never had permanent possession of that land. Time and again other nations held it. Now for centuries it has belonged to Turkey.

The Jews have no right to that land except through this great Oath-bound Covenant made to Abraham. How foolish, therefore, do those intellectual Jews appear who disclaim Abraham as mythical, but who, nevertheless, claim the Land of Promise! It will never belong to any except those who hold to the Promise.—Romans 4:11-14.

Abraham's Three Wives Typical. While Abraham and his wives were real personages, their affairs were so supervised by God that they became types. Abraham typified God; Isaac, the Messiah; and Rebecca, the Church, Messiah's Joint-heir in the Kingdom.—Galatians 3:6, 29.

Abraham's wives were types of God's three great Covenants, through which His blessings will come. St. Paul explains that, as Sarah was barren, so the chief Covenant was barren—until Jesus came. Meantime, Hagar became representatively the wife, and attempted to bring forth the heir of Promise, but failed. St. Paul declares that in this, Hagar typified the Law Covenant, which failed to bring forth the real Seed of Abraham, competent to bless all the families of the earth.—Galatians 4:22-31.

As Hagar was a bondwoman, she typified the bondage of the Law Covenant; and Ishmael, Inspiration points out, typified Israel after the flesh. As later on, the barren Sarah brought forth the promised son, so, St. Paul explains, God's original Covenant in due time brought forth the true Heir, Jesus—Messiah.

Abraham's All Given to Isaac. In the type Abraham gave all that he had to Isaac, through him making provision for Ishmael and for Keturah's children. In the antitype God bestows all His fullness upon Christ, the Messiah, and through Him makes provision for the natural Israelites and all mankind.

Hagar and Sarah were types of the Law Covenant and our Covenant of the Gospel Age. Abraham's third wife, Keturah, taken after Sarah's death, typified the New Covenant, which the Bible declares will be inaugurated at the close of this Gospel Age. Under that New Covenant the Spiritual Seed of Abraham, The Christ, will bless all the families of the earth during the thousand years of the Messianic reign. Such is the length, the breadth, the height and the depth of God's Love for humanity, and His provision for their future!

As the Stars and as the Sands. Only of late have Bible Students discerned that Abraham is to have two seeds, exclusive of the Ishmaelites of the Law, or Hagar, Covenant. "Thy seed shall be as the stars of heaven and as the sands of the seashore." The stars fitly picture to us a glorified Christ and His Church, His Bride, changed from earthly to Heavenly conditions—the Spiritual Seed of Abraham.

These St. Paul refers in Galatians 3:29 and 1 Corinthians 15:41, 42.

God's Oath to Abraham. Professor Dodds has ably pointed out that the procedure of dividing an animal and passing between the two parts was an ancient form of oath. Thus God adopted the strongest possible symbolism for assuring Abraham and his posterity that the Abrahamic Covenant will never be broken.

St. Stephen noted that the Abrahamic Promise had not been fulfilled in Apostolic times, even though Israel possessed Canaan for centuries. Abraham never owned a foot of it. (Acts 7:2-5.) St. Stephen's reasoning is that after Messiah sets up His Kingdom, Abraham will come forth to inherit the land and to bestow it upon his posterity. But the antitype—the whole earth—will be the Land of Promise to all who shall return to harmony with God, and constitute the earthly seed of Abraham.

## TOBACCO CULTURE.

Extensive preparation is being made all over this county for the seeding of tobacco beds. Many beds have already been burned and as the weather has been open and somewhat springlike the work will progress rapidly within the next week.

Do not fail to plough your ground very deep before putting the seed in the ground. This method has been tried by many good growers, and has been the means of helping the growth of the seed and preventing the weeds' growth.

Do not plant the common tobacco seed. Get the seed which past records show bring the money. They will cost a little more than the common but will bring more revenue.

Don't you think it worth your while to just put in enough tobacco this year which you can comfortably and properly take care of yourself, rather than attempt to cultivate twice the amount? Haven't the growers business foresight enough to see that with an increased acreage there is bound to be an overproduction? Then, what?

Six-cent tobacco will bankrupt any grower on earth. The way to prevent this is to cut the crop in half and house properly—produce quality rather than quantity. This is what is wanted by buyers, and unless the growers put their shoulder to the wheel and work for substance, character and color, the price will lower and the bottom drop out.

The Paris Warehouse Company is making arrangements to double the capacity of their warehouse and salesroom. It behoves the warehouses at Mt. Sterling to get busy and do the same thing. The market at Mt. Sterling this year has so far handled over 4,000,000 pounds and it has been demonstrated that neither house has adequate floor space for handling the tobacco and conducting sales. Further, this market, must have a redrying plant and be prepared next season to put buyers into the field early and have solicitors in every county. With this done, the market at Mt. Sterling can be made the equal of any in the State. Let us get busy now. "A stitch in time, saves nine," and we should not wait until all other markets have "sewed up" everything.—The Blue Grass Journal.

What an insane thing it is to sadden the heart of that companion that alone one should look for joy.

MULE BREEDING.—It is generally conceded that mule raising is one of the farmers' most profitable industries. Therefore it behooves him to have information as to the kind of mules in demand, that their breeding may be governed accordingly. There are two schools of mule breeders; those who prefer the light mare that will produce a quick, active mule for light farm work. This kind prefer the trotting or thoroughbred stock for brood mare purposes. The other kind or class favor the mule that is produced by the mating of well bred, active jacks and draft mares. These mules are good farm animals, a trifle slow, but for drawing heavy machinery and loads are much preferable to the smaller animal. At any rate this class of mules is in big demand and are bringing the top prices. Personally, we think that the best mule is the one that is the offspring of a cross-bred mare, viz: Thoroughbred draft mare. Experiments have also proved that this is one of the best types of mules, for they combine the characteristics of both classes—weight and activity.—The Blue Grass Journal.

## A MESSAGE TO WOMEN

Who are "Just Ready to Drop."

When you are "just ready to drop," when you feel so weak that you can hardly drag yourself about—and because you have not slept well, you get up as tired-out next morning as when you went to bed, then you need help right away.

Miss Lea Dumas writes from Malone, N. Y., saying: "I was in a badly run-down condition for several weeks, but two bottles of Vinol put me on my feet again and made me strong and well. Vinol has done me more good than all the other medicine I ever took."

If the careworn, haggard men and women, the pale, sickly children and feeble old folks around here would follow Miss Dumas' example, they, too, would soon be able to say that Vinol, our delicious cod liver and iron remedy, had built them up and made them strong.

It is a wonderfully strengthening and invigorating body-builder, and we sell it under an ironclad guarantee of satisfaction. You get your money back if Vinol does not help you.

# FINE BLUE GRASS FARM

SOMETHING GOOD

## AT PUBLIC AUCTION

Wednesday, March 12, 1913

On the above date, at the hour of 10:30 o'clock, a. m., on the premises, near Thomson Station, Clark county, I will, as agent for the owners, sell to the highest and best bidder, the fine Bluegrass farm, known as

## MOUNDALE

considered naturally one of the finest farms in the entire State. In the boundary is about 420 acres, limestone land with rich and fertile soil, and with a foundation seldom found in so large a body of land. The soil possesses the humus and nitrogenous compounds to produce any crop grown out of the earth, and is well drained, so that the water will not wash off, but will soak into the ground, making the soil such that it can take up enough moisture and retain it long enough to prevent a drouth from burning up the crops. The land is free from rocks and possesses the strength to produce the best bluegrass and high grade Burley tobacco, as well as any crop grown in Central Kentucky—such as hemp, corn, wheat, oats, alfalfa, cow peas, soy beans, etc. It is so situated as to be 1,200 feet above sea level, making it one of the most desirable from the standpoint of health in the entire Commonwealth.

## MOUNDALE

is known far and wide as the hospitable home of Col. and Mrs. Harry P. Thomson, and it has been in the Thomson family for a lifetime. In its green pastures the finest herds of cattle have made merry in the waving bluegrass; its fields have produced the finest tobacco, wheat and corn, grown in this State, and its barns have sheltered some of the best blooded horses, mules and swine that money could buy or care raise and produce. And now, through ill health, this noted place is thrown on the market and will be sold. The opportunity to purchase a farm like "MOUNDALE" is only offered to the public once in a life-time, and it is here presented to those looking for a fine body of land. The neighborhood cannot be surpassed. The neighbors are highly cultured, prosperous people; churches are only a short distance from the door of the residence, with stores close by and railway station in a few minutes walk or drive. The location is perfect. In fact no objection can be raised to the farm by any one. A net-work of good turn-pikes surround the place and two railroads—the Lexington & Eastern and the Chesapeake & Ohio run on either side, with shipping pens for stock within a five minutes drive. Can you find another farm in Central Kentucky located so well, and having the same advantages as "MOUNDALE?"

"MOUNDALE" will first be offered in two tracts, and then as a whole, and will sell in the way it brings the most money.

TRACT NO. 1—Contains about 212 acres, with improvements and is located about 7 miles from Mt. Sterling; laying on the West side of the turnpike and South of the C. & O. railroad. On this tract is the residence and most of the improvements. The residence—a white house of Colonial type, is situated in a grove of trees on a slightly sloping mound, the trees being of pine, hemlock and maple, giving to the residence a charm few fail to appreciate. The lawn is filled with trees of hard maple, persimmons, fruit, Japanese walnut, mulberries, and black walnuts, with here and there many clumps of flowering shrubs, lilacs, springas, flowering almonds, wygelia, besides many climbing roses, wisteria and honeysuckle, grape vines, peonies, with many varieties of jonquills, narcissus and tris. The residence contains nine rooms, one reception hall about 10x30 feet, two smaller halls, two large porches, pantry, cellar and store room. The doors and window casing in the two large front rooms and hall are finished in rosewood, the rest of the finish of the house being in white, and all built out of the very best material. The residence is an ideal country home, and has all the necessary outbuildings. There are four large rooms in the servants' quarters and in the yard is an office with a fire place. The ice house is a circular one, the part under the ground being 16 feet deep and 22 feet in diameter, is one of the largest and best in the country. There is a two-story meat house, carriage house, brooder house 16x60 feet with a concrete floor, hen house 14x30 feet, sufficient to house 100 hens. A fine cistern and filter. About six acres are fenced with paling, including the orchard and garden. This contains, among other things, 1 acre of fine asparagus, a splendid pie plant bed, cultivated blackberries, raspberries, grapes, apple, pear and plum trees, strawberry beds and some old-fashioned flowers such as roses strawberry shrubs, early flowering bulbs, etc. Outside of the yard is a large hennery, a grainery which will store a large amount of grain, a horse and cow stable, stock barn, which will shelter 150 head of cattle and will store 200 tons of hay, a corn crib, large tobacco warehouse, with screw, which is used for storing grain, handling and prizing tobacco, hemp, grass seed or other farm products. On this tract is also one tobacco barn 44x100 feet, one barn 44x130 feet, five tenant houses, two orchards, outside the garden enclosure—an old and new one—with apple, cherry, plum and peach trees, also a three acre grove of young walnut trees, about 30 feet high.

TRACT NO. 2—On this tract laying East of the turnpike and containing about 204 acres, is a small residence and one \$2,500 tobacco barn which will house 25 acres of tobacco. The prettiest site to build a home that can be found anywhere, near a never-failing spring and commanding a view for many miles in every direction, overlooking for miles long stretches of blue grass land, and to the Southeast can be seen Indian Fields and the mountains beyond.

On both tracts is the very best woven wire fence, running around the entire place with cross fences excellent. The farm is one of the very best watered in the State, there being running water all the year on both parts of the farm. It is said that the waters of Licking, Red River and the Kentucky River "head up" on this farm, and it is true that the water flows from it in as many different directions. There are about 200 acres of this farm in bluegrass; about 80 acres in rye, sown last fall; about 50 acres of corn and cow peas land, where the corn and cow peas were hogged down last year, and the estimated yield of corn in 1912 was 75 bushels of corn to the acre; and about 60 acres in clover. On Tract No. 2—about 135 acres of bluegrass; 40 acres of rye; corn and cow peas hogged down, 35 acres. On Tract No 1—70 acres in bluegrass; 60 acres in clover; 20 acres in corn and cow peas, hogged down last fall; 40 acres in rye, etc.

The improvements and description are not overdrawn and we solicit a careful inspection of the farm and buildings.

TRACT NO. 2 will be offered first; then TRACT NO. 1 will be offered, and then the farm will be offered as a whole, and in the way that the farm brings the most money is the way it will sell.

TERMS:—One-third of the purchase price to be paid when deed is made and the balance of the purchase money divided into four equal payments, due and payable in one, two, three and four years, bearing 6 per cent interest, with lien held on the land to secure the purchase money unpaid.

Possession—Possession of the farm will be given at once, as soon as the terms of the sale are complied with, and possession of the residence and barns within fifteen days after sale or sooner if possible.

This is the greatest opportunity ever offered to land buyers in Kentucky, as a farm such as "Moundale" is rarely ever offered for sale at public outcry. In offering this farm to the public we are frank to give our reasons, as nothing but ill health would induce the owners to sell. There is no better farm in the Bluegrass section of Kentucky than "Moundale" and we are ready at all times to show the property to prospective purchasers, or they can see the place by driving to the farm, where the owners will take pleasure in showing it over. Don't forget the date—Wednesday, March 12, 1913—on the premises. Hour of sale 10:30 o'clock a. m. "Moundale," the handsome estate of Col. H. P. Thomson at Public Auction. This farm will go. Be sure and be on hands. Buy something good. For any further information or particulars, call on or address

feet and drop siding was used to board  
up the walls. The roof is shingled.  
There are four windows on the south  
each with a double sash 22 by 28  
inches in size and arranged so the top  
ones may be lowered. We did not

want the open front style as we want-  
ed it tight for fumigating and also to  
keep out beating storms. The upper  
sash are lowered most of the time,  
and during cold weather we have a  
muslin curtain to lower over the open-  
ing. Roosts are hinged to the north  
side and may be raised and fastened  
to the ceiling where they are out of  
the way for cleaning, etc. A good  
dropping board below keeps the floor  
in good condition. Nests are placed  
along the east and west sides. This  
house has a good cement floor which  
keeps out rats.

This house admits plenty of sun-  
light and we have not had a frozen  
comb or sick chicken all winter.

### CARE OF DUCKS IN WINTER

Any Kind of Green Stuff That hap-  
pens to Be Handy Makes Excel-  
lent Feed for Fowls.

During winter I feed my ducks any  
green stuff that I happen to have  
handy. Turnip, parsnip and carrot  
tops, cabbage leaves, beet leaves, on-  
ion tops, purslane, pigweed, tender  
crab grass, lettuce, radish, mustard,  
cut fine, all make good bulky feed.

These are dried in the shade during  
the summer and stored like hay.  
When I want to feed them a quantity  
is boiled for twelve hours and mixed  
with finely cut roots, such as potato,  
turnip, parsnip, carrot, onion and  
beet. Apples are also used, says a  
writer in the Orange Judd Farmer.  
These are all cooked.

Not much of one kind of plant is  
given at a time. Four measures of  
any one with four of corn chop to  
each of wheat bran, red wheat shorts  
and boiled fresh meat are fed as a  
mash—all the ducks will eat it up  
clean in a few minutes. If any of the  
mash is left, it is at once removed to  
avoid its getting sour. This feed is  
given twice daily during the winter  
and three times in spring. It has al-  
ways proved satisfactory.

## POULTRY NOTES

Clean soiled eggs.  
Get a reputation for selling fresh  
eggs.

Do not keep eggs in a cellar or  
damp place.

Let the old roosters go before they  
eat their heads off.

About ten ducks are required to  
make a pound of feathers.

If chicken keeping doesn't pay don't  
be in too big a hurry to blame the  
chickens.

Goose feathers being more oily are  
apt to sooner turn rancid than chick-  
en feathers.

Crude carbolic acid and coal oil  
make a fine disinfectant. Use a con-  
tinuous sprayer.

A sovereign remedy for limberneck  
is four drops of turpentine in a tea-  
spoonful of water.

Charcoal is a wonderful tonic at  
this time. See that the fowls get all  
they want of it to eat.

Poultry breeders need to know as  
much of the breeding worth of a fowl  
as cattle breeders of a bull.

The man with a fine lot of young  
chickens to sell, now is the one who  
has a smile that won't come off.

One sick chicken soon infects a  
whole flock. It is always safest to re-  
move a bird at first signs of illness.

The essentials of poultry raising  
are cleanliness and close attention,  
coupled with hard work and com-  
mon sense.

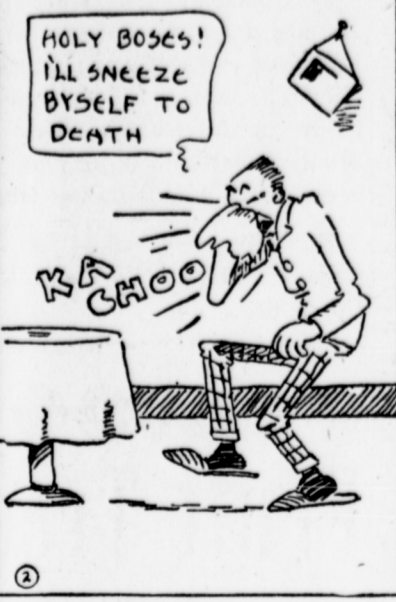

Supply hens with plenty of crushed  
oyster shell. The shells costs little and  
means much if it's winter eggs you  
are working for.

The hens relish green food of some  
sort and will amply repay you for the  
trouble of chopping up cabbage, pota-  
to peelings, turnips, etc.

Any egg eaters in the flock? Make  
the nests as dark as possible; that  
will help. If that doesn't discourage  
the culprit, sharpen up the ax.

In the long continuous poultry build-  
ing it is desirable that an alley way  
be provided for the sake of conveni-  
ence in passing through the building.

## "BUY IT AT HOME"

## You Know Us

We are in business right here where you live. You are an  
acquaintance, neighbor or a friend of ours. This money-back-  
if-not-satisfied offer should prove the sincerity of our claims.

When we say we believe we have  
the best laxative and back up our  
statement with our unqualified prom-  
ise to return without question or  
formality the money paid us for it,  
if it does not prove entirely satis-  
factory to you, we believe we are en-  
titled to your confidence.

Our business success and prestige  
depend upon your confidence in us.  
We know we must secure and hold  
your confidence in order to get and  
keep your patronage. Therefore, we  
would not dare make this offer if we  
were not positively certain that we  
can prove our claims for

### Reall Orderlies

Our experience with them and the  
many reports we have received from  
those who have used them prove  
that they are really the most pleasing  
and satisfactory bowel remedy we  
know of.

Reall Orderlies taste like candy.  
They are soothing and easy in action.  
They don't cause griping, nausea,  
purging or excessive looseness, as do  
the usual physic or laxative. Reall  
Orderlies seem to act as a tonic-  
strengtheners upon the nerves and  
muscles of the bowels. They prompt-

ly relieve constipation. They act to  
overcome the cause of constipation.  
They tend to eliminate the cause  
of sick headache, biliousness, bad  
breath, nervousness and other ills  
attendant upon inactive bowels.

### Make Us Prove This

We want you to come to our store  
and get a package of Reall Order-  
lies. Use a few or use up the entire  
box. Then, if you are not entirely  
satisfied, come back and tell us and  
we will promptly return the money  
you paid us for them.

You promise nothing—you sign  
nothing—you obligate yourself to us  
in no way whatever. We accept  
your mere word.

Don't you now believe that Reall  
Orderlies are worthy of a trial?  
Could any offer be more fair?

### Try Them at Our Risk

We particularly recommend Reall  
Orderlies for children, aged persons  
and for delicate people.

Reall Orderlies come in vest  
pocket tin boxes. 12 tablets, 10c;  
36 tablets, 25c; 80 tablets, 50c.  
Usual dose one tablet.

CAUTION: Please bear in mind that Reall Orderlies are not sold by drug-

### ROOT COTTON FOUND IN ORIENT.

An interesting new tropical prod-  
uct is the "root cotton," described by  
S. Kusano, a Japanese botanist. It  
is a fibrous covering of the roots of  
Fagara integrifolia, an abundant  
plant of the Philippines, and espe-  
cially of Botel Tobago, an island  
near Formosa. The substance seems  
to be a kind of cork tissue, resem-  
bling the ordinary cork developed  
on the bark of trees. The fibers, of  
light straw color and silky luster,  
are very fine, soft, and weak, and are  
easily pulverized to a waxy powder.  
They are less hygroscopic than ordi-  
nary cotton, having remarkable re-  
sistance to wetting by water. In  
Botel Tobago the natives use the root  
cotton for caulking boats, and in the  
Philippines it is employed for such  
purposes as stuffing pillows. Not  
least of the advantages of this mat-  
erial as a possible article of commerce  
is the fact that it can be removed  
without injury to the roots, thus  
making cultivation simple.

Printing for particular people at  
popular prices is not our specialty  
but our every-day business.

### CORRESPONDENCE.

#### STOOPS.

(By B. M. Goodan.)

Many tobacco beds were sown here last week.

There will be an increased acreage of corn in this part of the county.

Mrs. E. L. Fassett slowly improves.

A large amount of fodder will be left unfed.

There remains several loads of tobacco scattered through this section that, owing to the dry weather, could not be moved to market. Another season will completely clean up the 1912 crop, being earlier than any crop of tobacco was ever disposed of before.

Mrs. Alfred Doyle returned from a Louisville hospital last week. She continues to improve.

Thornton McClain, of Aaron's Run, has rented and is moving onto Col. A. W. Hamilton's farm.

Advocate readers have anxiously awaited the appearance of the "Booster Edition."

Stanley Trimble and wife entertained the young people with a party Wednesday night. An immense crowd attended.

During the past ten days we have been presented with eleven different brands of weather.

Ira D. Sumpter and wife, of Clark county, spent Sunday with Thos. Warner and wife.

It is reported that a spring term of school will soon begin here.

Thursday morning the residence and contents of Aunt Lyddia Moxley, colored, were destroyed by fire. A defective flue is thought to have been the cause of the fire. But Aunt Lyddia's trouble was destined not to end there, for on Saturday morning as she and her daughter were driving on the Hinkston pike their horse frightened at a hog and ran off, upsetting the buggy and throwing the occupants to the

pike. The girl's collar bone was broken and otherwise badly injured. Aunt Lyddia was not badly hurt.

#### LEVEE.

Mr. John Davis and family, of Maysville, have moved to the property he bought of Dr. See.

Mr. James French, of Stanton, has moved to the place known as the Henry Hall farm.

Mrs. Frank Monroe and son, Russell, visited friends and relatives in Clark county last week.

A. Russell's son, who cut his foot very badly, is getting along nicely at this writing.

Pete Rice sold a mule to Sam Williams for \$100.

#### KIDVILLE.

(By John G. Vivion.)

Mr. Dallas Webb and wife have returned home after spending several days with the latter's parents at this place.

The condition of Mr. L. M. Hardy is somewhat improved.

Aunt Mary Davis is visiting friends at Mt. Sterling this week.

Mrs. Cat Harris, of Lexington, is visiting relatives at this place.

Mr. Harvey Vivion made a business trip to Log Lick last Thursday.

Mr. John Thomas is slowly improving.

Mr. A. T. Pieratt, who has been sick for several days is better.

Mr. and Mrs. James Finney attended the funeral of Mr. Asa Pettit at Stanton last Friday.

Mr. Stanly Clay, wife and mother attended the funeral of Mr. Frank Grigsby last Sunday.

Mrs. Lula Spencer and daughter are visiting her parents, Mr. and Mrs. James Williams, at Indian Fields.

Miss Lillie Rice, of Winchester, has returned home after spending several days at this place.

Mr. Carl Piersall and wife are visiting the latter's parents, Mr. and Mrs. John Scott, near Indian Fields.

### "Big Boy" Found Dead.

"Big Boy," one of the slayers of Deputy Sheriff Hart, of Clark county, was found dead last week on the banks of the Kentucky river. He had been wounded several times and it was at first thought his death was due to having been shot, but it later developed that his death was caused by pneumonia, which he doubtless caught from exposure. The body of the negro was taken to Kerr & Bean's undertaking establishment in Winchester, where it was identified not only as one of the murderers of Mr. Hart but also as a murderer of John S. Clark, a prominent contractor who was killed in Portsmouth, O., about thirteen years ago.

This makes two of Hart's slayers now dead, the other one having been killed by an officer in Virginia. One has been sentenced to die in the electric chair by a Montgomery county jury and there is one more who is still at large.

### YOUR FRECKLES

**Need Attention in February and  
March or Face May Stay  
Covered.**

Now is the time to take special care of the complexion if you wish it to look well the rest of the year. The February and March winds have a strong tendency to bring out freckles that may stay all summer unless removed. Now is the time to use othine—double strength.

This prescription for the removal of freckles is the discovery of an eminent skin specialist, and is so uniformly successful that it is sold by W. S. Lloyd under guarantee to refund the money if it fails. Get an ounce of othine—double strength, and even a few applications should show a wonderful improvement, some of the smaller freckles even vanishing entirely. 34-38 &c.

### TOBACCO SALES.

No sale was held at either of the local houses Monday, but both houses will hold a sale today. During the past week prices improved but the receipts were much lighter. For the rest of the season sales will only be held once or twice a week, according to the amount of tobacco that comes in. The season will close here the first part of March and anyone having tobacco not yet sold had better hurry it in. The report of last week's sales follow:

#### FARMERS HOUSE

#### WEDNESDAY'S OFFERINGS.

One of the best held by this house, and prices were much better, with tobacco in better case and better quality. The market was very active and prices strong and firm on all grades, some running from 2 to 3 cents higher than for two weeks past. Bidding was brisk, sales quickly made and floor sold in short order. The prices ranged from 4 to 19½ cents, with a uniform price running throughout the sale. The rejections were very light and 110,275 pounds were sold. The following averages will show how the market ranged:

W. E. Foley, 10,550 lbs., \$14.05.  
Palmer & Boyd, 3,105 pounds \$13.25.  
George Alexander, 305 pounds, \$13.  
J. W. Wilson, 3,185 lbs., \$13.15.  
Asa Magowan, 1,995 pounds \$11.  
French & Royse, 4,330 pounds \$13.97.  
S. R. Adamson, 4,320 pounds, \$15.13.  
J. Prewitt Young, 4,370 lbs., \$15.73.  
Whitsitt & Hamilton, 3,430 lbs., \$14.44.  
Crockett & Thompson, 3,910 lbs., \$15.14.

General floor average was \$11.49. The largest single crop of tobacco sold at the 'Farmers' Warehouse so far this season was sold by S. R. Adamson. The crop was probably the best single average crop in the county, considering the size of it. There were 25,600 pounds in the crop and the average for the entire sale was \$19.38 or a total of \$4,961.28.

The sale Friday was an exceptionally good one, and 50,000 lbs. were sold at from 4 to 23 cents. Quality was better and few rejections. Low grades higher and market active and strong on all grades, with buyers eager to take hold of anything with quality and character. Individual averages ran from 10½ to 16½ cents per pound. Receipts are getting much lighter than usual. Prices are holding firm and uniform and the sales are much stronger than they have been for a week.

#### BURLEY HOUSE

#### WEDNESDAY

Sales were very good, better prices being realized than at the last sale, with market more active, prices stronger and demand heavy. Quality of weed better and there were few rejections. Market was 2 to 3 cents higher at this sale than last week. About 20,000 pounds were sold at prices ranging from 4 to 17½ cents. Some average prices were caught as follows:

B. F. Carpenter, 1,895 pounds, \$11.30.  
Watkins & Atkinson, 915 lbs., \$12.03.  
Coons & Kratzer, 2,380 pounds, \$10.75.  
Young & Warner, 1,345 lbs., \$10.80.

Mr. Floyd Combs bought of Winchester parties one pair of mules for \$230.
